Good Morning Jen, John,

Can you all respond to John L's question about labeling for samples?

Rusty_____

Dear Rusty,

Thanks for your help in seeking answers to questions so we can adapt as smoothly as possible.

A question came up internally this morning. Our sales group would to give out samples (eg. 8 x 1 oz blocks) or similar sizes as samples to customers to try out. They feel this would be very helpful in promoting use of our newer registrations which are mitigation compliant. These

samples would have the full label on them. Can you check into this to see if this is allowed?

Many thanks for your help.

Best regards,

John Lublinkhof
